- Positive affirmations develop mindfulness and awareness

## RESULTS

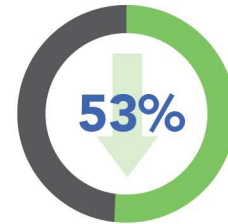

### Symptom Decrease

### Impulsive Behavior

### Racing Thoughts

For more on our results, visit [www.biosoundhealing.com/research](http://www.biosoundhealing.com/research)

*"We immediately schedule our clients for a session of Biosound Therapy when we suspect they are becoming agitated or may end their treatment. After the session, they calm down to a point where they are willing to listen and cooperate. In addition to the obvious benefit to our clients, Biosound Therapy substantially reduces our AMA rates."*

**President, G&G Holistic Treatment Center of Miami**
